

Cationic Emulsions Series Solve 211G Series

Material Safety Data Sheet

Date Issued: 06/09/09

Date Revised: 06/09/09

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: **SOLVE 211G Series**
CHEMICAL TYPE: Water soluble polymer in emulsion.
COMPANY: **WaterSolve, LLC, 4964 Starr St. S.E., Grand Rapids, MI 49546, USA**
For Product information call 616-575-8693.

2. COMPOSITION/INFORMATION ON INGREDIENTS

Identification of the preparation: Cationic water-soluble polymer in emulsion.
Regulated Components: None

3. HAZARDS IDENTIFICATION

Appearance and Odor

Form: Viscous liquid
Color: Milky
Odor: Aliphatic

Emergency Overview

Spills produce extremely slippery surfaces.

4. FIRST AID MEASURES

Inhalation: Move to fresh air. No hazards which require special first aid measures.

Skin Contact: Wash off immediately with soap and plenty of water. In case of persistent skin irritation, consult a physician.

Eye Contact: Rinse thoroughly with plenty of water, also under the eyelids. In case of persistent eye irritation, consult a physician.

Ingestion: The product is not considered toxic based on studies on laboratory animals.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media: Water, water spray, foam, carbon dioxide (CO₂), dry powder.

Special fire-fighting precautions: Spills produce extremely slippery surfaces.

Protective equipment for firefighters: No Special protective equipment required.

Flashpoint: Does not flash.

Autoignition temperature: Does not ignite.

6. ACCIDENTAL RELEASE MEASURES

- Personal precautions:** No special precautions required.
- Environmental precautions:** As with all chemical products, do not flush into surface water. Do not contaminate water.
- Methods for cleaning up:** Do not flush with water. Dam up. Soak up with inert absorbent material. If liquid has been spilled in large quantities clean up promptly by scoop or vacuum. Keep in suitable and closed containers for disposal. After cleaning, flush away traces with water.

7. HANDLING AND STORAGE

- Handling:** Avoid contact with skin and eyes. When preparing the working solution ensure there is adequate ventilation. When using do not smoke.
- Storage:** Keep in a dry, cool place (0-30 °C). Keep away from heat and sources of ignition. Freezing will affect the physical condition and may damage the material.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

- Engineering controls:** Use local exhaust if misting occurs. Natural ventilation is adequate in absence of mists.
- Personal protection equipment**
- Respiratory protection:** In case of insufficient ventilation wear suitable respiratory equipment.
- Hand Protection:** Rubber gloves.
- Eye protection:** Safety glasses with side-shields. Do not wear contact lenses.
- Skin protection:** Chemical resistant apron or protective suit if splashing or contact with solution is likely.
- Hygiene measures:** Wash hands before breaks and at the end of workday. Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

- Form: viscous liquid
- Color: milky
- Odor: aliphatic
- pH: 3-7 @ 5 g/l; for product series.
- Melting point/range: not applicable
- Flash point (°C): Does not flash.
- Autoignition temp. (°C): Does not ignite.
- Vapor pressure: 0.13
- Approx. bulk density: 1.02

10. STABILITY AND REACTIVITY

- Stability:** Product is stable. No hazardous polymerization will occur.
- Materials to avoid:** Oxidizing agents may cause exothermic reactions.
- Hazardous decomposition Products:**
Thermal decomposition may produce: hydrogen chloride gas, nitrogen oxides (NOX), carbon oxides (COx).

11. TOXICOLOGICAL INFORMATION

Acute toxicity

- Oral:** LD50/oral/rat > 5,000 mg/kg
Dermal: The results of testing on rabbits showed this material to be non-toxic even at high dose levels.
Inhalation: The product is not expected to be toxic by inhalation.

Irritation

- Skin:** May cause skin irritation with susceptible persons.
Eyes: May cause mild eye irritation with susceptible persons..
Sensitization: The results of testing on guinea pigs showed this material to be non-sensitizing.
Chronic toxicity: A two year feeding study on rats did not reveal adverse health effects. A one year feeding study on dogs did not reveal adverse health effects. Prolonged skin contact may defat the skin and produce dermatitis.

12. ECOLOGICAL INFORMATION

- Ecotoxicity:** This product is rapidly eliminated from the aquatic medium through irreversible adsorption onto suspended matter and dissolved organics.
- Fish:** LC50/Danio rerio/96 hr > 10-100 mg/L (OECD 203) (Based on the toxicity of the components using the Conventional Method.
- Algae:** Algal inhibitions tests are not appropriate. The flocculating characteristic of the product interfere directly in the test medium preventing homogenous distribution which invalidate the test.
- Daphnia:** EC50/Daphnia magna/48 hr > 50mg/L (OECD 202) (Based on the toxicity of the components using the Conventional Method.
- Environmental Fate:**
- Hydrolysis:** At natural pHs (>6) the polymer degrades due to hydrolysis to more than 70% in 28 days. The hydrolysis products are not harmful to aquatic organisms.
- Other ecological information: The aquatic toxicity is highly mitigated by the presence of dissolved organic carbon in the water.

13. DISPOSAL CONSIDERATIONS

- Waste from residues/unused products:**
In accordance with federal, state and local regulations
- Contaminated packaging:**
Rinse empty containers with water and use the rinse water to prepare the working solution. Can be landfilled or incinerated, when in compliance with local regulations.

14. TRANSPORT INFORMATION

Not classified as dangerous in the meaning of DOT, IATA, IMDG regulations..

15. REGULATORY INFORMATION

International Inventories

European Union (EINECS/ELINCS): All components of this product are either listed on the inventory or are exempt from listings.

USA (TSCA): All components of this product are either listed on the inventory or are exempt from listings.

Canada (DSL): All components of this product are either listed on the inventory or are exempt from listings.

Canada (NDSL): All components of this product are either listed on the inventory or are exempt from listings.

Australia (AICS): All components of this product are either listed on the inventory or are exempt from listings.

China (IECSC): All components of this product are either listed on the inventory or are exempt from listings.

Japan (ENCS): All components of this product are either listed on the inventory or are exempt from listings.

Korea(ECL): All components of this product are either listed on the inventory or are exempt from listings.

Philippines (PICCS): All components of this product are either listed on the inventory or are exempt from listings.
